

MARQUIS®

MAKE YOUR MARQ™

OUR COMMITMENT TO GREEN*

FRAME CONSTRUCTION: All frames are constructed using a combination 4/4/kiln-dried hardwood from SFI (Sustainable Forestry Initiative) Certified replenished forests. Each frame is constructed using a combination 4/4 kiln-dried hardwoods with 7/8 hardwood laminated plywood.

SEAT CONSTRUCTION: All seats are constructed with sinuous loop steel springs linked together with 8 gauge no sag sinuous wire and attached with wire clips.

FOAM: Foam is 1.8 density polyfoam with dacron wrap. All foam complies with CAL117. Marquis offers alternate green foam which is available by special request.

FINISH: Marquis has eight standard finishes, which are water based and use the lowest VOC (volatile organic compound) emissions possible for commercial use.

*When specified Marquis is committed to executing your green friendly product. Please be sure that all green information is clearly stated in the specifications.
